

ACTIVATING ENTREPRENEURS

Entrepreneurial ventures are key drivers of new technology and job creation.

AgriNovus commissioned an extensive assessment of the Indiana agbioscience entrepreneurial ecosystem. The study identifies four priority strategies that AgriNovus and its partners can use to help build a stronger ecosystem. They include:

- **BUILD** the pipeline of agbioscience entrepreneurs in Indiana
- **ACCELERATE** agbioscience entrepreneurs in Indiana
- **CONNECT** agbioscience entrepreneurs to existing resources
- **DEVELOP** new resources targeted to the unique needs of agbioscience entrepreneurs

SUPPORTING INDIANA'S AGBIOSCIENCE ENTREPRENEURS

EXPLORE OUR STUDY

Explore the research that demonstrates the growth + expansion opportunities available in Indiana's agbioscience entrepreneurial ecosystem. Read the full study on our website.
